## EDUCATION

**Bachelor of Computer Application, GLA University, Mathura**

Percentage: 77.2 %

**May 2024**

Mathura, UP

**Intermediate, S.S Public School**

Percentage: 80.8 %

**May 2021**

Agra, UP

**High School, S.S Public School**

Percentage: 75.2 %

**May 2019**

Agra, UP

## EXPERIENCE

**Noida Power Company Limited (NPCL)**

Application Developer (System Trainee)

**Feb 2024 - Present**

Greater Noida, UP

- Engineered and deployed scalable applications for NPCL, enhancing system functionality and supporting critical business operations with advanced technology solutions.
- Collaborated with cross-functional teams at NPCL to develop tailored software applications, driving improvements in data integration and user experience across the organization.
- Working on distinct projects like Carpool application, SIM Management, HR Training Portal, Quiz application, Netflix Clone, Movie trailer website, Correspondence management system and so on.

## PROJECTS

**Movie Trailer Website** 🔗

- Developed a comprehensive movie overview and trailer website, enhancing user engagement with interactive content and seamless navigation. I made this project using HTML, CSS, JavaScript and Oracle Apex.
- Implemented a dynamic platform featuring detailed film summaries and trailers, boosting user retention through a user-friendly interface and up-to-date film information.

**Netflix Clone** 🔗

- Independently crafted a "Netflix clone" utilizing HTML, CSS, JavaScript and node.js. Developed a dynamic user interface, designed for intuitive navigation. Integrated JavaScript functionalities to showcase and toggle through content sections offering a seamless interface.

**Correspondence management system** 🔗

- Created a paperless letter management system using Oracle APEX, HTML, CSS, SQL, and PL/SQL to automate record-keeping and reduce manual effort.
- Developed a letter management solution for streamlining document tracking and minimizing reliance on physical paperwork.

## SKILLS

### Technical
